## DETAILED ACTION

This is the first office action for U.S. Application 10/026,847 for a Stud Mounting System filed on December 21, 2001. Claims 1, 2, and 4-20 are pending.

### ***Allowable Subject Matter***

Claims 1, 2, and 4-20 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a motor housing with an inner and outer surface; a housing body extending between the surfaces, a plurality of raised projections extending radially outward from at least one of the housing surfaces defining a recess with respect to the housing inner surface of the housing body, including an assembly of the rotating component and a stator of the motor, each projection having at least one opening extending therethrough, and each having an inner surface and a thickness equal to the housing body thickness; and at least one fastener having a top surface and extending through the housing opening such that the top surface of the fastener is co-planar with the un-recessed portion of the housing inner surface. The prior art also fails to disclose the method steps of mounting the structure described above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3632
